

## RECOMMENDATION LETTER

March 28, 2021

To whom it may concern,

I'm very pleased and privileged to be able to provide this recommendation for Palak Kothari, who's worked as an android developer for the last 2 months at PlutoAcademy.

Although being just a 2nd-year student of IIT Guwahati, Palak had shown exemplary skills and work ethics. She is a constant top performer and has always exceeded our expectations. She had been very proactive and delivered results on time.

Palak had worked directly with me to develop the android app for PlutoAcademy. Her main strength is on UI of an android application and put great effort to make the app look perfect. Overall she had been a perfectionist and a really good developer. The ability to learn new technology and implement them with user-focused design is her principal strength.

I strongly recommend Palak as an excellent performer. I am willing to provide more information if needed.

Warm regards,

---
